

Pre-course Information

Firstly thank you for choosing BH Marine as your training provider; we pride ourselves on being an outstanding provider of training with the principle aim of keeping you safe on the water. In order to get the most out of your day please read the information below. Whilst some of it might be basic stuff please bear with us, everyone gets this, so everyone knows.

IS THERE A STRUCTURE TO THE COURSE?

Yes and no. we have to follow the syllabus but the weather has a habit of changing so we may need to change to suit the weather. So assume you'll be on the water every day.

WHAT TO WEAR?

Dress to the conditions, so if it's warm, shorts, hat, t-shirt and sunglasses and of course water and sun cream. (Bear in mind, weather conditions on land can be vastly different to on the water.

WET OR WINDY CONDITIONS

Waterproof trousers, with spare clothes, try to wear light gear that will dry quickly or keep you dry. Deck shoes are not required, but non-marking sensible shoes are a must. i.e. not flip-flops. A waterproof coat is sensible for ALL conditions, as is a towel, life jackets are provided.

IS THERE ANYWHERE I CAN KEEP THINGS?

The best place is your vehicle, there is very limited storage aboard our vessels so only bring what you need.

WHERE TO MEET?

Please meet the instructor at the Dean & Reddyhoff Marina reception by 9:30am as shown in the map (or use DT4 8NA for your Sat Nav). Car parking is available at the Debenhams car park or the adjacent car park. The marina car park is for berth holders only.
